PROFESSIONAL SUMMARY

AWS Certified Cloud Practitioner (2025) and Systems Engineering student at Universidad EAN. Junior Full Stack Developer passionate about combining creativity and technology to build meaningful web solutions. Graduate of the BIT Institute Bootcamp, where I developed a full task management app (Angular + Node.js) with JWT authentication, route guards, and Vercel deployment. Core Team Member and Women in Cloud Leader at AWS Cloud Club EAN, promoting technical learning and inclusion in cloud computing. Strong focus on clean architecture, UI/UX design, and REST API integration, always seeking to transform ideas into reliable, scalable applications.

EDUCATION

Universidad EAN

B.S. in Systems Engineering (In progress)

AWS Training & Certification

AWS Certified Cloud Practitioner (2025)

Bogotá Institute of Technology

Full Stack Development Bootcamp (2025)

IBM / Coursera

AI Developer Professional Certificate (2024)

EXPERIENCE

AWS Cloud Club EAN – Core Team Member & Women in Cloud Leader (2025 – Present)

- Lead the Women in Cloud initiative, coordinating community events and mentoring sessions that promote female participation in cloud technology.
- Support the main leader as co-facilitator during Builder Card sessions, helping students understand and apply AWS concepts in practice.
- Design and deliver technical sessions on AWS Fundamentals (curriculum aligned with the AWS Solutions Architect – Associate learning path).

Universidad EAN – Technical Project Leader (Feb 2025 – Apr 2025)

- Led a team of four students in developing an automated biodigester prototype using Arduino sensors for temperature, level, and pressure monitoring.
- Simulated biogas production in AVEVA, achieving a 30% improvement in data accuracy compared to manual methods.
- Drafted the final technical report summarizing system efficiency and sustainability outcomes.

KEY PROJECTS

Arcade Task Manager (Angular + Node.js) (May 2025 – Aug 2025)

Developed a single-page Angular 17 web app with JWT authentication, AuthGuard route protection, and full CRUD operations for task management.

Integrated RESTful APIs with Express.js and Axios, styled with SCSS, and deployed on Vercel.

[GitHub](#) | [Live Demo](#)

TechForge Solutions Website (Apr 2025 – Aug 2025)

Designed and deployed a responsive corporate website for TechForge Solutions to strengthen digital presence and client outreach.

Built modular HTML/CSS/JS components, optimized for mobile-first performance and reduced load times.
